

Family Relationship Project - Pilot

The Centre has also been successful in its joint proposal to trial a formal partnership with the Cairns Family Relationship Centre and other stakeholders.

This partnership aims to assist separating couples to be better aware of their rights and responsibilities through the provision of legal information, advice and community education.

We expect that the trial will commence shortly and is expected to run for 12 months.

We thank the Commonwealth Attorney-General's Department for provision of funds which make this trial possible.
